### Package Content: 1x Orbit Pen 2x Pick Tool 1x Type-C Cable 1x Hanging Ring 1x Silicone Mouthpiece 1x Lanyard \*Extra Quartz Balls 1x Instructions Manual \*Extra Seal Rings

How To Use: - Silicone Piece Glass Mouthpiece & Cover – Quartz Balls – Quartz Balls Coil - Base 0 Battery

1. Load/Reload: Rotate and pull to remove the mouthpiece, put material  $\,$ into the quartz bowl. Rotate and push to put the mouth piece back on.  $\label{eq:continuous}$ 

\*Note: The device needs to be primed for better experience. Preheat 10 seconds before inhaling. The quartz balls on the bottom of the bowl will spin from vortex air, they provide extra heat to improve using experience.

- 2. Power on the device with 5 quick clicks of the power button. White light flashes 5 times the device is on standby.
- 3. Connect the atomizer to the battery. White light stays on for 1 second indicates successful connection. Red light flashes 5 times if the resistance is lowe than 0.3 ohm, connection failed.
- 4. Preheat Mode: Click the power button 2 times, preheat function will run for 10 seconds with a solid white light. To stop preheat, press button another 2 times. Lights will turn off.
- 5. Adjustable voltage: Low Middle High.
- White = 3.4V Blue = 3.7V Green = 4.0V
- To change voltage settings click the power button 3 times, continue this

to get to desired voltage setting.

- 6. After use, press power button another 5 times within 2 seconds to power off. Red light flashes 5 times the device is off.
- 7. To charge the battery use the type-c cable that is included. The red indicator lights up solidly when it is charging. In around 2.5 hours(0.85A) the battery will be fully charged, the indicator shuts off.

# Protection:

Safety Cutoff: If the device is heating continuously for more than 15 seconds,

green light will flash 10 times and stop working.

No coil: Green light flashes 3 times.

Short-circuit: Red light flashes 5 times. Low battery: Red light flashes 10 times and stops working.

**Overheat Protection:** If the temperature of the device exceeds 110°C /230°F (about 3-5 sessions), red light will flash 3 times quickly and stop working, then the device will resume operation when the temperature drops below 80°C/176°F.

## Caution:

- 1. Keep the device away from any environment involving strong acids, alkaline, combustible materials, water or any other liquid.
- 2. Do not keep in hot cars or store above room temperature of 74F.
- 3. Do not use damaged batteries. If battery casing is damaged discontinue  $\,$ use and safely recycle battery.
- $4.\,{\rm Do}$  not use battery if contacts become exposed to solid or liquid matter. Short circuits can result in swelling, rupturing, explosion and fire.
- 5. Do not touch coils when hot. Severe burns can result.
- 6. Do not touch hot material. Severe burns can result. 7. If the device gets too hot in use, please stop using it for a while.
- 8. Not for use with nicotine or nicotine products. Not an ENDS device.
- 9. Do not heat the pick tool.

## Disclaimers:

People under 21 years of age are not permitted to purchase or use this device. Non-smokers, children, and women breast-feeding should not use this product.
